GRX

It's time for your first guitar...or maybe you've been playing for a while, but you're on a budget. So you have to settle for less, right? Wrong. With GRX Ibanez models, you've got Powersound pickups on a solid wood body with standard tremolo for screaming leads, comfortable, easy playing necks and a wide assortment of available finishes. And every GRX guitar is set-up and inspected according to some stringent standards of our most expensive instruments.

Due to overwhelming demand from working pro's, we've returned to the Artist to our regular line-up. For guitar collectors we created the new Artist Prestige model. Perhaps best of all, we're very proud to offer the most affordable Artist in the Artist's over twenty year history, the new GIO Artist.

The GAX model comes with two humbucking pickups on a solid wood body and die-cast tuners for power sounds and tuning stability. So now everyone—famous artist, everyday working artist, and even starving artist—can be a part of the Ibanez Artist tradition.

GTR

GTR Traditional Models have the playability and tone of a classic bass. But GTR basses have their own look and great finishes so they don't look like every other classic bass

copy you see on the rack. Best of all, Ibanez GTR are priced to make it easy for you to start playing. And their great tone and feel make it easy to keep playing.
